

# NATIONAL TICKETING

## The story so far

### Context

(NZTTL)

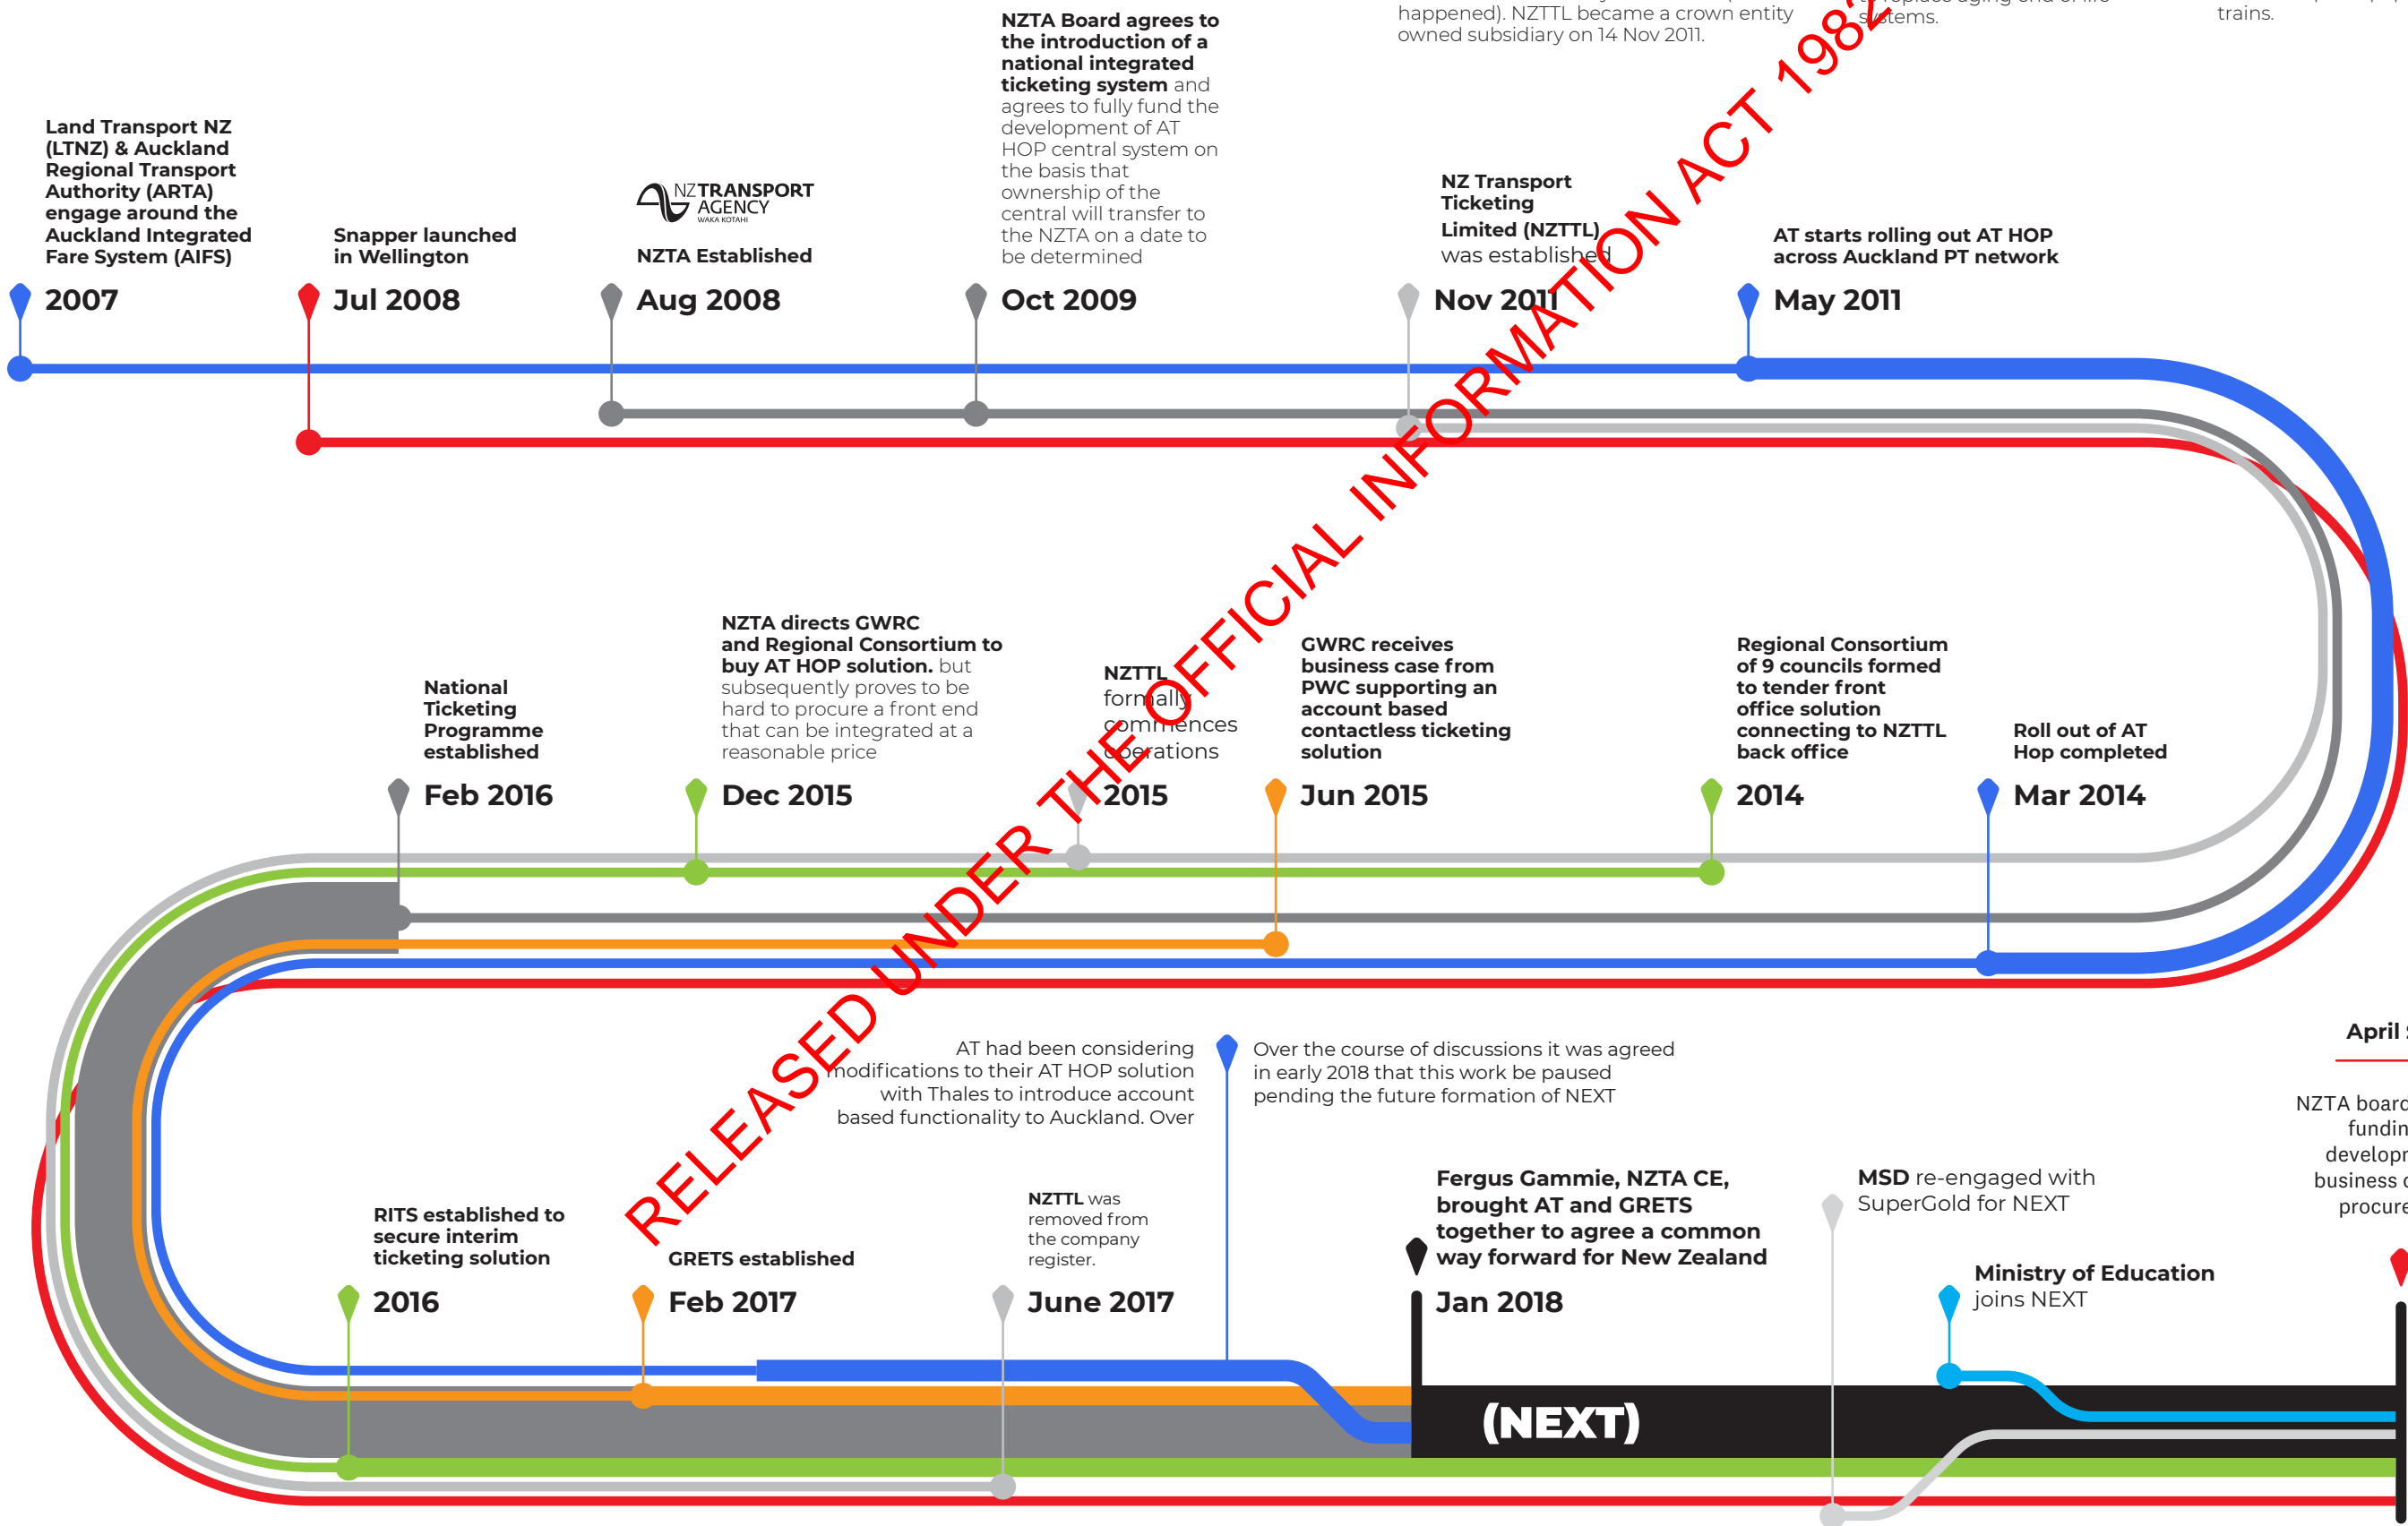

(RITS)

(GRETS)

NZ Transport Ticketing Limited (NZTTL) was established as a wholly owned subsidiary of the NZTA. The intention was that the Auckland Integrated Fares System (AIFS) would be extended nationally and NZTTL would hold the core system assets (this never happened). NZTTL became a crown entity owned subsidiary on 14 Nov 2011.

The Regional Interim Ticketing Solution (RITS) is a closed loop, card-based multi-tenanted ticketing solution for 9 of the smaller & medium councils in NZ, to replace aging end of life systems.

GRETS was a consortium of all NZ councils with Public Transport responsibilities, excluding Auckland Transport (AT). GWRC were the lead council, driven by a need to replace paper tickets on trains.
