SAFE SYSTEM AUDIT
LIVE ONLINE TRAINING

Updated to reflect the **NEW** *Aotearoa process*

Covers content from the **WAKA KOTAHI** *Safe System Audit guidelines*

✅ ## Covers the 2022 Austroads Guide to Road Safety Part 6: Road Safety Audit

The Safe System Audit combines both the Safe System Assessment framework and the identification of road safety concerns (using the traditional road safety audit procedures), into a single Safe System audit for use throughout the project development lifecycle. This program covers the **2022 Austroads Guide to Road Safety Part 6:** Road Safety Audit and the **new Aotearoa Safe System audit guidelines**. This course is relevant to individuals who wish to **become a Safe System Auditor**, those required to **manage the Safe System Audit** process or current Road Safety Auditors that wish to undertake a refresher course.

THIS INTERACTIVE PROGRAM GIVES YOU:

- Learning from your **home** or office how to become a Safe System Auditor
- Complete the **field exercise near your home** - tell us where you live or want to be and we tailor an audit location near you
- **Support** while you complete your audit, if required
- Phone & email support throughout the program
- Supportive peer learning group via chat functionality
- **Engaging** content including live modules, quizzes, games, 360 footage and prizes to keep you motivated
- **Welcome pack** delivered to your door

SUCCESSFUL COMPLETION

In order to successfully complete this program and gain your certificate to become a Safe System Auditor, you must:

- Attend a minimum of 5 out of 6 live webinars, and view any not attended (all webinars are recorded and available to review)
- Satisfactory completion of all set tasks - including quizzes, exercises/assignments, audit site visit and audit report.
- Achieve an average 80% pass mark on all quizzes (up to three attempts with one-on-one coaching available if required)

COST (PER PERSON)
New Zealand Participants $200 AUD
