

# 1 What's coming up?

Early works have included setting up the project office off McVie Road and three other site huts on the route.

We have got under way with erosion and sediment controls (to prevent runoff) ahead of the earthmovers coming in.

At the peak of the project around 250 people will be working on the site.

Site works at Waring Road

## Here's a rundown of the works programme from now until the end of summer:

- |  |   |
|--|---|
| <p><b>Oct to Feb</b><br/>Access and haul road construction</p> | <p><b>Jan to Mar</b><br/>Orini Road bridge embankments<br/>Ralph Road mechanically stabilised earth (MSE) wall and bridge embankments</p> |
| <p><b>Nov to Feb</b><br/>Vegetation clearing</p>               | <p><b>Nov to Mar</b><br/>Northern interchange works</p>   |
| <p><b>Oct to Dec</b><br/>Local road diversions</p>             | <p><b>Mid Oct to Mar</b><br/>Culvert construction</p>   |
| <p><b>Oct to Jan</b><br/>Mangawara Stream temporary bridge</p> | <p><b>Oct to Mar</b><br/>Erosion and sediment controls<br/>Fencing</p>  |
| <p><b>Starts Jan</b><br/>Mangawara Stream bridge</p>           |   |
| <p><b>Oct to Mar</b><br/>Fencing</p>                           |   |
