

# Belfast to Pegasus Motorway and Woodend Bypass

A 9km, 4-lane, extension to the Christchurch Northern Motorway. The project will begin where the motorway joins with the Western Belfast bypass and the Northern Corridor motorways, and will go through to Pegasus, bypassing Woodend. The project completed an early assessment and obtained a designation in 2015. The next phase for this project is focused on refreshing old information and closing any gaps in evidence before progressing to design and property purchase.

- Existing state highway
- Proposed motorway extension
- Extent of project

This map is for illustrative purposes only.

Construction timing is dependent on NZ Transport Agency Waka Kotahi securing necessary funding and approvals. The Government Policy Statement on land transport (GPS2024) requires alternative funding and financing be considered. This will include assessing all Roads of National Significance for tolling.
