

Whangarei Urban Improvements

Kensington to Manse Street Intersection Improvements

Temporary changes to road layout on Western Hills Drive from Wednesday 10 February.

Access to Kensington Avenue is restricted to left turns in and out only and temporary traffic signals will be operating at Manse Street while the new roundabout is under construction at Kensington Avenue.

Please reduce speed through construction areas and allow additional journey time during peak periods. The project is scheduled to be completed in January 2017.

We thank you for your patience.
