

Te Ngae Junction roundabout

New access for people on bikes to bypass the roundabout. **No vehicle access onto SH33.**

Benefits:

- lower vehicle speeds
- less severe crashes
- improved right-turn movements
- improved safety for people on bikes.

New single lane roundabout to improve safety by slowing down traffic at the intersection. This includes upgrading existing safety barriers and constructing a retaining wall.

Retaining wall

Existing safety barriers

Intersection improvements including a new right-turn bay into Rangiteaorere Road to improve safety for turning vehicles.

Rangiteaorere Road to be used as a bypass for people on bikes heading north.
