

SH73 West Melton Intersection Improvements - Night Works

What	We'll be working overnight
Where	The intersection of State Highway 73 and Weedons Ross Road
When	Between 6pm, Sunday 24 July and 7am, Monday 25 July. Our work is weather dependent and may need to be rescheduled to the following night(s).

What are we doing?

Between 6pm, Sunday 24 July and 7am, Monday 25 July, we will be working to install the ducting across the intersection, to begin the process of undergrounding the overhead power supply. The work is being undertaken at night when traffic volumes are lower to avoid congestion and disruption. It is also safer for our work crews and road users.

Night works and what to expect

The crew need lights to see what they are working on so you may notice extra light in the area. There will be unavoidable noise from trucks, machinery and the crew. We know that night works are more disruptive to residents. Our team will limit this disruption as much as possible. We will aim to carry out the noisiest work early in the shift and we will complete the work as quickly as we can.

Traffic and pedestrian impacts

The intersection will be temporarily controlled by traffic lights during these works. Please look out for our staff and follow their instructions. Footpath access around our work site will be maintained. Also, please look out for changes in traffic management and follow signs on site. A 30kph speed limit will be in place.

Driveway access

Access to properties will be maintained. However, we may need to work in front of driveways from time to time. If you need to get into or out of your property and we are in the way, please just talk to one of our friendly staff and we will make sure you can use your driveway.

We're sorry for any disruption and thank you for your patience.

CAN WE HELP?
