

21 Underpass

A NEW UNDERPASS PROPOSED FOR SH21

Walkers and cyclists in the Tamahere community are another step closer to a safe crossing of State Highway 21 Airport Road, with design work underway on a proposed underpass near Wiremu Tamihana Drive.

Waka Kotahi NZ Transport Agency is funding the underpass as part of its section of the Te Awa Cambridge to Hamilton shared path.

As well as providing a safe crossing of SH21, the underpass will connect the community to key local facilities, including the Tamahere Village, Tamahere Country Club, Tamahere School and the Community Centre.

On-site geotechnical investigations were completed prior to the Covid-19 lockdown and now detailed design is being progressed by staff working remotely.

Waka Kotahi NZ Transport Agency is committed to working with community stakeholders to provide input into the design, to ensure a safe facility is built.

In our next update, we will provide further detail of the design, including how you can share your thoughts and ideas on what we're proposing.

The location of the proposed underpass is shown in the map above. On the northern side of SH21, the underpass will connect to the existing shared path on Wiremu Tamihana Drive. On the southern side of SH21, the underpass will connect to the Tamahere Drive section of Te Awa, by going through the Tamahere Country Club.
