ISSN 1174-5452

Preface

Traffic Monitoring provides a fundamental tool for the management of the State Highway network.

The measure of the traffic demand imposed on the network enables Transit New Zealand to effectively and efficiently allocate resources.

The information contained in this publication is derived from Transit New Zealand's Traffic Data Collection Network.

This consists of a hierarchy of equipment which ranges from sophisticated weight in motion and vehicle classification to simple traffic counters.

The weigh in motion and vehicle classification equipment is operated from the Head Office, Traffic Monitoring Groups continuous telemetry network, the balance is run via the regional traffic counting programmes.

Transit New Zealand welcomes any feedback on this publication. It is designed to be useful, we need to be advised of potential improvements.

Disclaimer

While every endeavour has been made with regard to the accuracy of this information, Transit New Zealand accepts no responsibility for any errors or consequences thereof.

NOTES

1. STATE HIGHWAY - State Highway 1 is suffixed N and S for North and South Islands respectively.
2. DISTANCE - The approximate distance of the count in kilometres from the start of the highway.
3. AADT - Annual Average Daily Traffic Volume (estimated).
4. Some counts have a character following the volume column. These counts are of a greater accuracy because they are counted at a higher frequency.
 - T - Telemetry sites counted continuously.
 - W - Telemetry weigh in motion sites, monitored continuously.
 - S - Control sites counted continuously.
 - C - Control sites counted one week per month.
5. Telemetry (T & W) sites are able to distinguish between long and short vehicles. Therefore the percentage of Heavy Motor Vehicles can be approximated at those sites. The number following the T or W denotes the approximate % HCV's (HMV's = vehicles greater than 3.5 tonnes gross).
6. Where a State Highway spans more than one Transit region, the approximate location of the boundary is shown.
7. The graph showing the national traffic growth indices, is presented at the end of this publication.
